It delivers an accurate and comprehensive personality profile and provides targeted career recommendations. It's also much faster and cheaper to complete as compared to traditional tests. customers can greatly expand the volume of individuals completing assessments.

For workforce boards, the tool can be used with a range of job seekers: youth to elderly, minimally to highly educated and those with limited English language skills. For all, it helps create an engaging introduction to career services, while charting the next move in career, job and education plans.

For college and universities, Woofound helps students ranging from freshmen to adult students to those seeking encore careers to better match with careers and jobs as well as academic majors and programs.

Planner / Action-Taker

You are the person that everyone turns to in order to get things done. You don't like to waste time and take a no-nonsense approach to any task set before you. Your natural propensity for understanding and keeping track of the fine details of any project makes you the ideal problem-solver for hands-on tasks. Your friends call on you when they need help with a project around the home, and you prefer to spend time with others while also taking part in activities. Not much for sitting around, chatting, or having deep discussions, you bond with others over games, hobbies, and shared projects. You tend to be a solitary person and prefer to spend time with others in small groups as opposed to large outings. You are also happy on your own, focused on a project and taking satisfaction from a job well done.
