• Helping both the Career Coach and the Client
“With minimal upfront time investment, the assessment gives our clients valuable Labor Market Information before their meeting with the Career Coach. It helps the Career Coaches better understand their client and initiates a productive Career Pathway conversation. Together they can quickly focus on the specific training and/or employment needs of the client.”

I found Woofound very user friendly. The assessment tool uses both pictures and words. My preference were the words because I tend to be very analytical, detailed and word oriented. The assessment accurately reflected my interest and skill sets in the fields of science and technology. The Career Coach and I found the results very useful during the first individual session. It provided spot-on career guidance and helped us establish my Individual Employment Plan.”

Robert Reiss

HELP of Southern Nevada
“I love the medical field, problem solving and helping people. When I took the Woofound assessment it was fun and interesting. I took the results along with me to my first meeting with my Career Coach. We discussed my career plans and we developed a personalized plan for training in order to achieve my goal to be a Phlebotomist. I am currently attending classes and looking forward to applying my new skills in the medical field of Phlebotomy.”
